Paint shop stripes the Corp Yard

To provide more parking spaces in Lot 23 for staff personal vehicles and university vehicles, FS partnered with Transportation and Parking Services. After identifying two areas, FS set to work by prepping the pavement.

Painters **Jesse Guzman**, **Matthew Munton**, and **Brandan Figueroa** started leaf blowing, removing weeds, and sweeping the lots.

Gunther Lind, architectural associate, produced layout drawings for the painters to

Matthew Munton, Gunther Lind, Brandan Figueroa, and Jesse Guzman.
(UCR/Erin Chapman)

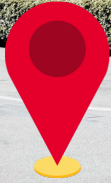

determine starting points for striping the spaces.

Together, the group chalked the lines for the

striper machine to trace, and Matt and Brandan took turns running the machine.

Now that the work

is finished, more information will follow about the parking spaces designated for FS employees.
