## Paint no doubt about it

After years of accumulation, over 12,000 gallons of paint are gone.

Stored in the Corporation Yard, the old cans of paint took up many aisles of FS's shelving.

Jeffrey Beal, procurement and material inventory supervisor, coordinated the scope and proper disposal of the cans.

The storage space never felt so great. This makes an impression we cannot just brush aside, gloss over, or layer over. Thank you!

(UCR/ Jeffrey Beal)
