In 3-5 months, Custodial Services staff will start reporting from the trailer building in Lot 23. With construction improvements nearly complete, we wanted to share some photos of the spacious interior. More info to come!

FIRST LOOK! Inside the new Custodial Services building

Attention maintenance and irrigation crews:

FS is proud to launch a pilot program soon introducing iPhone 14s and iPad 10th Gen devices. Recipients will receive an email with more information next week.

These devices will be preloaded with essential work-related applications, including FAMIS 360. This is to help streamline timekeeping, simplify access to work orders, and enhance communication among team members.

Testing will start throughout February with full distribution/launch by March. By providing the ability to reference critical building data and safety codes directly from the field, this program is designed to improve efficiency, safety, and convenience for our technicians as they support and maintain our campus facilities. More details and training will come in the following months.

New devices for work orders arriving. (UCR/Erin Chapman)

ORGANIZATIONAL UPDATES

FS EMPLOYEE ENGAGEMENT SURVEY

<https://bit.ly/3PpiEk6>

We are seeking every Facilities Services employee's input to gather open and honest feedback.

The information you provide in this survey will help Facilities Services with critical insights to plan strategically for the future and better serve you concerning your biggest workplace challenges. Your feedback will help us focus on:

- Improving organizational operations and efficiencies
- Creating a more supportive workplace
- Expanding services and resources

Your answers will remain anonymous.

Please complete the survey by January 31, 2025.

SCHOLARSHIP AVAILABLE
