MOBILE ROLLOUT: 55 IPHONES, 5 IPADS DEPLOYED

Curtis White, John Kendrick and Marc Santoro from Fire Maint. meet with Bryan Garza, Rana Mahmood, and Alan Siero for in-person training. (UCR/Erin Chapman)

Client Support Services is making significant strides with the Mobile Rollout Program. The team has deployed 55 iPhones and 5 iPads to teams in Electric, Plumbing, Fire Maintenance, Building Mechanical, Access Control, Carpentry, Paint, Sheet Metal, and Irrigation. These devices are designed to streamline fieldwork and are equipped with 49 preloaded apps and tools, including FAMIS 360, R'Space, the EH&S Safe App, key contacts, and departmental forms.

In-person trainings, resource materials, and a dedicated **Mobile Support Site** have been introduced. Technicians will soon be able to request material parts through a new inventory module.

Special thanks to the Mobile Rollout Team — **Rana Mahmood, Caitlinh Nguyen, Bryan Garza, and Alan Siero** — for making all of this possible!

FS WAREHOUSE PHASE I. PART I.

Filter Program Overhaul

The Butler Building's front layout is shaping up for FS's new filter program. This is the first step of the warehouse inventory program, managed by **Jeffrey Beal**, procurement and material inventory supervisor. By bringing filter installation in house, FS will reduce costs from \$750K to \$350K annually. Building maintenance workers and new staff will install the filters in air handlers for 75 campus buildings as part of preventative maintenance.

A very special thanks goes to:

Kenya McAllister, Willy Cuellar, Santos Godina, Richardo Hart, Jeremy Horvath, Dustin Gale, Ryan Glaze, Laszlo Nemeth, and Daniel Mendez, for their crucial help moving the big stuff in the wining days/hours so custodial could clean the floors before the filter delivery, coordinated by **Sandra Martinez, Anthony Chadwick** and **Charles Dalton**; Supervisors **Joe Dyer, Kirk Quash, Rich Cordova, Bill Henschel, and Cory Gryniuk** and the shop teams to make this possible; and Central Purchasing's **Katie Inglett-Mendoza, Gae Purvis, and Henry Gutierrez** for coordinating the bid to support the filter program.

AWESOME JOB!

Kudos goes to Sr. Custodian **Thomas Rivera** and Project Manager **Brenda Vejar** for their excellent teamwork on the new faculty floor project at Bourns Hall. We see the difference!
