

A BURST OF COLOR TO CELEBRATE THE CLASS OF 2025 Vibrant yellow marigolds paired with blue lobelia are newly planted to be in full bloom for graduation. Fresh mulch adds the finishing touch to this arrangement, promising a picturesque backdrop for the celebration. (UCR/Joe Candias)

FS highlights sustainability during Earth Week

On Wednesday, April 23, FS participated with Burrtec Waste Industries Inc. to host tables at the Sustainability Showcase & Flea Market near the Bell Tower.

At the event, we showed off our new electric chainsaw and leaf blower equipment, displayed our centralized

waste stations, and discussed our Zero Waste Program.

We distributed FS tape measure key chains, snacks, and informative flyers. FS's display also included a Styrofoam brick compacted by Burrtec, which is recycled into photo frames and baseboards.

College Corps Student Fellow Nishtha Shah represents the Facilities Services booth with landscape supervisors John Starling and Tos Ishida during Earth Week in front of the Rivera Library.

FACILITIES FOCUS

STAFF MILESTONES

30 YEARS

Dale Mladenovic
Labor Supervisor

10 YEARS

Jeffrey Coppage
Fire & Life Safety Mechanic
Jesus Guzman
Sr. Building Maint. Worker

EMPLOYEES OF THE MONTH

Jeremy Horvath, Electrician
Maintenance Services
Anthony Morris, Zone Mechanic
Maintenance Services

ORGANIZATIONAL UPDATES

PURCHASING ASSISTANCE

- Chandahaas Mariserla is supporting the FS ASSET purchasing team as a limited appointment purchasing assistant.

KUDOS

- Sr. BMWs in the Building Mechanical/HVAC shop cleared space in the Butler building by removing pallet racks, storage shelving, and other items for disposal or recycling. They managed this while starting the new filter PM program and continuing campus water treatment. Great job Roland Perez, Robert Wessler, and Julian Parra.
